

Registration open for the IADC-PIANC conference “Integrating Dredging in Sustainable Development”

Programme includes a special pre-conference networking drinks and dinner on 17 October.

To all EDA members,

Register now for an event that promises to redefine the boundaries of sustainable development. Join us on **Friday 18 October 2024** at the prestigious **Sheraton Saigon Grand Opera Hotel** in vibrant **Ho Chi Minh City, Vietnam** for the international conference on “Integrating dredging in sustainable development”.

The event is dedicated to advancing industry knowledge in the arena of sustainable dredging and related topics, and offers you the unique chance to network with more than 60 CEOs and senior management of IADC member companies and PIANC platinum members. You are also invited to join our special pre-conference networking drinks and dinner on **Thursday 17 October 2024**.

By attending the conference, you will learn how to create sustainable dredging and marine infrastructure projects with a strong focus on climate change and “Working/Building with Nature”. Participants from around the world will be joining the event, making it possible for you to expand your network to an international level.

During the day’s programme full of interaction and discussion, the focus will be on two case studies – a “greenfield case” and a “brownfield case. For more information about the programme, the speakers, the case studies, how to register and the registration fee, please visit www.vietnamconference2024.com.
