

China Dredging Association

The Fourth Notice of The 7th International Dredging and Offshore Technology Development Conference of China

All members and related units:

In accordance with the key work arrangements of the 5th China Dredging Association (CHIDA) member conference, and with the aim of fostering new quality productive forces of the Chinese dredging industry and enhancing its international influence, CHIDA, along with CCCC Dredging (Group) Co. Ltd., plansto host "The 7th International Dredging and Offshore Technology Development Conference of China" with the theme of "New Quality Productive Forces and Sustainable Development in Dredging (Offshore Engineering)" from October 21 to 22 in Shanghai.

Since the first China International Dredging Conference in November 2003, six successive conferences have been successfully held in Shanghai, Guangzhou, Tianjin, Chongqing, Beijing and Shenzhen. The conference this year tends to invite major industry regulatory authorities, related industries and internationally renowned dredging companies to participate. Industry elites from all over the world will gather to discuss cutting-edge technologies across various aspects of the dredging industry, offshore engineering, ecological environmental protection, and equipment manufacturing, and deliberate on the latest international development trends of the dredging industry. The conference

has also received significant attention and support from government authorities.

I.Theme and Title of the Conference

Theme: Dredging (Offshore) New Quality Productivity and Sustainable

Development

Conference title in Chinese: 中国第七届国际疏浚（海工）技术发展会议

Conference title in English: The 7th International Dredging and Offshore
Technology Development Conference of China

II. Time and Location for Conference and Visit

Check-in time: October 21st 2024 9:00-12:00

Conference time: October 21st 2024 14:30-17:30

October 22nd 2024 9:00-17:30

Conference Venue: Sheraton Pudong Riverside Hotel Shanghai (2288
Pudong Avenue, Pudong New Area, Shanghai)

Transportation: 23KM from Shanghai Hongqiao International Airport
(T1, T2); 38KM from Shanghai Pudong International Airport (T1, T2); 30KM
from Shanghai Hongqiao Railway Station; 15KM from Shanghai Railway
Station;

Visit Time: ante meridiem, October 23rd 2024

Visit Location: Test Base of National Engineering Research Centre for
Dredging Technology and Equipment (No.10 Gucui Road, Xinchang Town,
Pudong New Area, Shanghai)

III.Conference Organisers

Guided by:

China Communications Construction Co., Ltd.

Hosted by:

China Dredging Association
CCCC Dredging (Group) Co., Ltd.

Co-organized by:

Eastern Dredging Association
Central Dredging Association
CCCC Shanghai Dredging Co., Ltd.
Shanghai Zhenhua Heavy Industries Co., Ltd.

Organized by:

CCCC National Engineering Research Centre for Dredging Technology and Equipment Co., Ltd.
CHEC Dredging Co., Ltd.
Shanghai Zhenhua Heavy Industries Qidong Marine Engineering Co., Ltd.
CCCC Special Engineering Co., Ltd.
CCCC Offshore Construction & Development Co., Ltd.

IV. Conference Agenda

Conference Agenda

Date: October 21st, 2024		
I. Opening Ceremony Host: CCCC Deputy General Manager Liu Chengyun		
Time	Main Content	Reporting Person
14:30-14:40	CCCC Leader Speech	General Manager Wang Haihui
14:40-14:50	Ministry of Transportation Leader Speech	Deputy Minister Fu Xuyin

14:50-15:00	The NPC Environmental Protection and Resources Conservation Committee Leader Speech	Vice Chairman Wang Hong
15:00-15:05	China Dredging Association Chairman Speech	CHIDA Chairman Liu Yongman
15:05-15:10	Eastern Dredging Association President Speech	EADA president Dato' Capt. David Padman
15:10-15:15	Central Dredging Association President Speech	CEDA president Kathleen De Wit
15:15-15:30	The Establishment of the Strategic Alliance for Dredging Offshore Engineering New Productivity Sustainable Development Launching Ceremony	Witness Leader
II. Keynote Presentations Host: CDC Vice President Zhang Qingbo		
15:40-16:05	Coordinated Promotion of Lake and Reservoir Dredging and Sediment Utilization	Chairman of the Collaborative Innovation Platform for Dredging and Utilization of Sediment Resources in China's Lakes and Reservoirs — Jiang Enhui
16:05-16:30	Ecological Restoration Technologies and Applications for Typical Coastal Wetlands in Northern China	Deputy Director of the First Institute of Oceanography, Ministry of Natural Resources — Wang Zongling
16:30-16:55	Current Status and Trends of Green Ship Development	Distinguished Professor at Shanghai Jiao Tong University and Chairman of Shanghai Jiao Tong University Underwater Engineering Institute Co., Ltd — Yang Qi
16:55-17:20	Research on Ecological Coastal Erosion Prevention and Control Technologies	Dean at College of Harbour, Coastal and Offshore Engineering, Hohai University, National Outstanding Youth — Gong Zheng
17:20-17:45	“Carbon” Path to the Future — Practicing New Quality Productive Forces in Ocean Carbon Sink Ecological Niche	Chairman of the Carbon Neutrality and Green Development Professional Committee of the China Association for Quality Inspection — Yuan Donglai

China Dredging Association
October 19th, 2024

The final Conference agenda is based on the Conference handbook.CC:
President, Vice-Presidents, Specialised Committees.

CHIDA

Issued on October 19th, 2024
